# EUROMEETING 2015

SEPTEMBER 25-27, OTEPÄÄ ESTONIA

Dear orienteering friends!

It's my pleasure to welcome you to Otepää, which is crowned as the Winter Capital of Estonia. This little town with its surroundings has always attracted sportsmen from near and far thanks to undulating and intricate landscape, which offers very good conditions for many sports. Otepää is mostly known abroad as a FIS Cross Country World Cup event venue and the starting point for the famous Tartu Ski Marathon. But it has also hosted a foot orienteering World Cup event in 1998 and European Orienteering Championships in 2006.

With Eurometing this year, Estonian orienteering community is preparing for the biggest possible challenge - organizing the World Orienteering Championships in 2017. WOC is going to take place in the same South-Estonian region and our intention is to give you adequate understanding about challenges you can expect on WOC 2017. At the same time it is an excellent opportunity for us, organizers, to test our skills in organizing a major event.

I wish you a pleasant stay in Estonia and a successful event!

Sixten Sild  
Estonian Orienteering Federation  
Chairman of the board

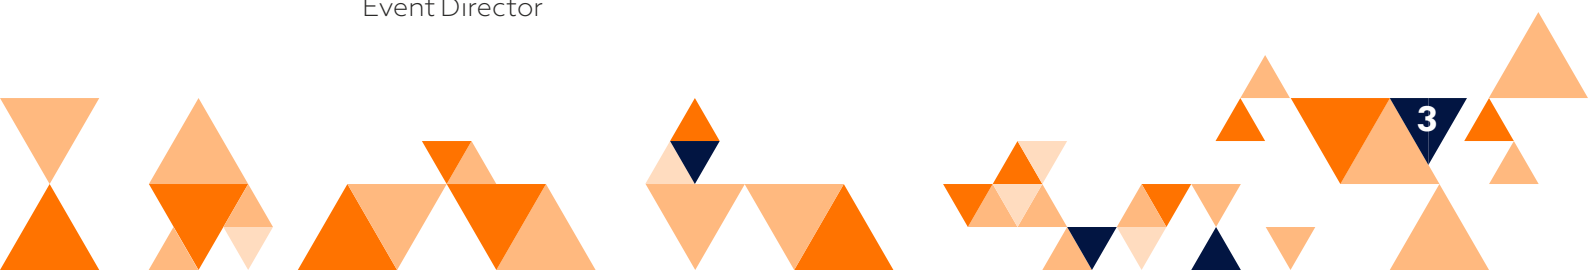

On behalf of the organizing committee, I welcome you to Eurometing 2015 that is the first big step for Orienteering Federation towards the World Orienteering Championships 2017. Numerous people have worked many hours in the last one and a half years for the success of the most prominent event of the orienteering season 2017 and are now eager to test their skills, co-operation and developed technologies during Eurometing to please the teams and spectators both at the arenas and behind their screens all over the world.

There has been great interest towards Eurometing from many national teams which makes us happy and inspires us to make this event even better for all of you! We are also very happy about the interest from a number of sponsors and partners who are stepping forward for the success of Eurometing 2015.

Together with the first official training camp for WOC 2017 and the largest annual orienteering competition in Estonia, XXVII Suunto Games, Eurometing will gather hundreds of orienteers to Otepää to enjoy great orienteering terrains, tight competitions and the hospitality of this great tourist region.

Welcome to Otepää!

Markus Puusepp  
Eurometing 2015 and WOC 2015  
Event Director

## 6. TERRAIN AND MAP

### Sprint - Otepää

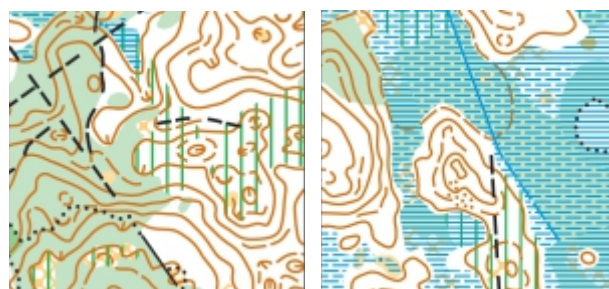

Town of Otepää and its immediate surroundings. The town consists of residential areas with private houses and block buildings with public space between them. East of the town are situated Tehvandi Sports Centre with ski-tracks and sports infrastructure and a hill fort are situated. Height difference is more than 30 metres.

Map: Otepää. Author: Kalle Kalm.  
Scale 1:4000. Contour interval 2,5 metres.  
Fieldwork in summer 2015.

### Long and middle distance - Kirikuküla.

Terrain is situated in the Otepää Uplands near the Elva river headwaters. Height difference on the terrain is 45 metres. The terrain is rather varied with depressions, hills and swamps. There is a dense network of roads and narrow rides although nature is starting to reclaim the smaller tracks. Runability in the forest varies from very good to medium.
