Mapping 2018 – 2019, Istvan Földi:

„The area is enviable. Mountainous terrain with a strong look of hills shaped by landslides, specific to the hills from the South of the Carpathians of Curvature. Physically and technically demanding terrain covered by diverse vegetation; from beautiful mixed forest with good visibility and runnability to large areas of mountainous open and semi open pastures and parts of thick vegetation. The area consists of undulating slopes, offering good route choice possibilities, exchanging with very detailed and technically challenging landslide micro relief, sometimes with rocky walls cliffs or boulders. Moderately developed track network, large sections with no paths.”

IOF Adviser, „The Two Exacting”:

Nina and Gabi Maiorescu:

„ No detail escapes uncontrolled. We assure you that everything will be ok, as the most demanding expectations.”
