The County of Idanha-a-Nova is very pleased to cooperate in the organisation of the World Trail Orienteering Championships 2019 (WTOC'19). We are very honoured to welcome all the athletes and their teams and friends who will participate in this major sports event.

Our County has excellent natural characteristics for all sorts of outdoor sports. These unique characteristics have attracted several national and international Orienteering competitions to Idanha-a-Nova in recent years.

The world award granted to Monsanto's Orienteering Course in 2013 increased our duty to do ever more and better for this sport.

Idanha-a-Nova has all infrastructures needed to meet the standards required by major and prestigious competitions such as the WTOC'19. We count once more on the priceless support and commitment of the Portuguese Orienteering Federation and ADFA, whose outstanding organisational skills deserve the highest praise.

Venue

Location

General Map

The World Trail Orienteering Championships 2019 will be held in the municipality of Idanha-a-Nova, located in the eastern center of Portugal.

<http://bit.ly/2sq3e4O>

Idanha-a-Nova is about 265km away from Lisbon and 300km from Oporto by car.

All event competitions will be setup and held around the town of Idanha-a-Nova and the granite mountain of Monsanto popularly known as "the most portuguese village of Portugal".

Venue

Idanha-a-Nova

Idanha-a-Nova is a municipality in the district of Castelo Branco in east-central Portugal, is halfway from Lisbon and Madrid. Its territory touch Penamacor in the north, Fundão in the west and Spain borders on east and south.

The population in 2017 was 8450 in an area of 1416.34 km², making it one of the largest municipalities in Portugal.

Idanha-a-Nova is the starting point of a cultural adventure and Centro Cultural Raiano is the right place to visit in order to get a sample of what to see and what to learn about the town and its surroundings.

From the local Castle, the view cannot reach the typical Penha Garcia, a beautiful village spread in a mountain slope, or the archeological ruins located at Idanha-a-Velha, the roman old city of Egitânia, or the thermal village of Monfortinho. You must get there during your stay.

Monsanto

Perched on a hilltop that oversees all the surrounding horizons, the village of Monsanto has a unique charm that has earned it two titles in the 20th century – the Most Portuguese Village in Portugal in 1938 and Historical Village in 1995. Monsanto is one of the region's main tourist attractions and offers visitors a unique experience. It was granted charters by King Afonso Henriques, King Sancho I, King Sancho II and King Manuel. The oldest part is also the highest point, where the Knights Templar built a wall with the donjon.

Open Public Event

Participants and Classes

On each of the four stages the entries are opened for everyone.

There is only one Open Class and there are no designated pushers to help. Pushers will be on site to help only on critical points.

Athletes and Team Officials will be registered by default in all the WTOC Model Event stages (included in the accreditation). Only the entries for the Public PreO 1 and the Public PreO 2 are needed.

Entries and Entry Deadline

General Open Public named entries are registered on Orioasis, the Portuguese Orienteering Federation online entry system.

The deadline for all entries in the Open Public Event (Eventor and Orioasis) is **June 13 2019**.

WTOC Accredited Team Officials and Athletes can register their entries on Eventor for Public PreO 1 and Public PreO 2 as a service.

WTOC Accredited Accompanying Persons can register their entries for any Public stage on Eventor as a service.

During Accreditation the names must be indicated to include in the Public startlists.

For their convenience all Accredited Team Officials, Athletes and Accompanying Persons can register named entries on Orioasis as an alternative for the Eventor entries.
