## 20 Sustainability

Tyrol's beautiful alpine landscape offers a huge range of options when it comes to adventure sports and outdoor activities. In order to preserve this stunning nature for future generations, we must protect our environment.

Ecological, economic and social sustainability form a core part of the WMMG 2020. In every decision, we aim to protect our climate, environment and resources as well as to contribute to greater social equality. You too can do your bit to help!

Here are the most important ways in which we show our commitment to making the WMMG 2020 an environmentally sustainable event:

- No new venues have been built for the WMMG 2020. All the venues in Innsbruck and Tirol were already here before the event. With the exception of Kitzbühel,

## Bulletin 4

all the venues are no more than 25 kilometres away from Innsbruck and can be easily accessed using public transport.

➔ *YOU CAN HELP! Use public transport to get around – as a participant in the WWMG you can use public transport free of charge (see "Transport" in the section Venue Information).*

- We do our best to use as little water as possible. Tyrol's drinking water is of outstanding quality and comes straight from the mountains.

➔ *YOU CAN HELP! Drink tap water instead of mineral water from plastic bottles.*

- We are able to save tonnes of waste thanks to reusable plates, dishes, etc. Any rubbish which cannot be avoided is separated and recycled.

➔ *YOU CAN HELP! Bring your own drinking bottles and hot drink flasks with you.*

- All documents used for the WWMG 2020 are printed in small quantities on FSC / recycled paper. We only print what we really need. All documents are available in digital form and can be downloaded from our website: [www.innsbruck2020.com](http://www.innsbruck2020.com).

➔ *YOU CAN HELP! Please only print documents that you really need.*

Volunteering – the WWMG 2020 brings people of different genders, generations, religions, nationalities and backgrounds together. This diverse melting pot helps to foster social cohesion in the region.
