## PRESENTATION

<https://www.plan-o.run/cemtbo2020>

The Navaleno-O club is pleased to present the Spanish Championships in MTBO 2020 and World Master Series that will take place in the municipalities of Quintana Redonda and Tardelcuende, province of Soria.

Just finish the organization in 2017 of the Iberian Championships in MTBO in Valonsadero (Soria), and with the good reception and general satisfaction for that event, the project that we now present has gained strength. We know that the environment chosen for the test is an exceptional quality place, and that is why we could not miss the opportunity to launch a higher level competition. There is a circumstance that, in addition to being valid for the World Ranking, the IOF has included it in the World Master Series 2020 event calendar.

It is for all these reasons that the Navaleno-O club has put all its enthusiasm and efforts into making this competition a high level one in all senses, and therefore we invite you to join us at the end of April to live this event.

## PRELIMINARY PROGRAM

DATE	DAY	HOUR	COMPETITION	LOCATION
12 APRIL	FRIDAY		ENTRIES DEADLINE	SICO (FEDO) ORIENTEERINGONLINE

## GEOGRAPHICAL AND TECHINCAL REVIEWS

### QUINTANA REDONDA.

Municipality located at 1,000 meters of altitude whose origins date back to the twelfth or thirteenth century. The place name could be related to the abundance of Roman camps established during the siege of Numancia. "Quintana" is the name that the Romans called the square and market together with the camp. As for "Redonda", it is descriptive toponym that indicates the shape of the land. Interest places are: The facade of the Blasonado Palace owned by the González de Gregorio family, the unique Bullring, and the Traditional Ceramics Thematic Center . [www.quintanaceramica.com](http://www.quintanaceramica.com)

In the Natural Environment we find oak, holm oak and black pine from which the resin was once extracted. The mycological variety of the area is also remarkable. It is a predominantly flat space where plant cover reaches 85% being a forest of continuity only compartmentalized by the vast network of forest roads and paths, which gives unity to the geographical area.

### TARDELCUENDE.

Share with Quintana Redonda most of the characteristics and singularities of the area, so with this, they form a geographical unit. Worth mentioning the enormous resin exploitation carried out in its forests. It is part of the "Mancomunidad de Obras y Servicios Río Izana", integrating itself into what has come to be called Comarca del Izana.

Here we also find areas of family tourism spots, composed of fountains, barbecues, snacks and shelters, all of them embedded in the middle of nature, in which you can feel silence and tranquility in full integration with the natural environment, which allows you to enjoy the ecosystems of these places.

Talking about **TECHNICAL** things, we approach a competition in an exceptional environment given the priority role of having an extensive network of roads, a circumstance that is overlooked here. This is thanks to the use made of the forest both at the forest level and for resin exploitation. Although the soils are sandy, they are well compacted, so the rolling is good; at the same time, the use of large machinery within the site means that the road network is generally more than two/three meters wide. However, the seasonal use made of that network means that these can be identified with difficulty at times. The forest is generally clean, with good penetrability and visibility, more in the southern area (Tardelcuende land). The orography is smooth except for some small hills where it may be necessary to get off the bike to arrive to the top.

With all of that, we can said that we are in an excellent place for the practice of this orientation modality, and which we hope you can enjoy in this championship.

## CLASSES

### CAMPEONATO DE ESPAÑA

M/F-15	≤ 15 years in 2020
M/F-17	≤ 17 years in 2020
M/F-20	≤ 20 years in 2020
M/F- Elite	Any age
M/F-21	Any age
M/F-40	≥ 40 years in 2020
M/F-50	≥ 50 years in 2020
M/F-60	≥ 60 years in 2020
Absoluta Parejas	2 from any age and sex
	Any age

Promoción	Any age/individual
Iniciación Parejas	From 2 to 5 people team, no competitive

### WORLD MASTERS SERIES

M/W35, M/W40, M/W45, M/W50, M/W55, M/W60, M/W65, M/W70, M/W75, M/W80

## ENTRIES
