Maps:

Map scale is 1:4,000 / 2.5 m. The maps are surveyed by Péter Molnár in 2021 according to ISSprOM 2019.

Terrain: **ROB Qualification:**

Parks, urban / suburban areas, housing estates and residential environment, playgrounds and courtyards of schools can all be found on the terrain. Gateways, block of flats and gates offer route choices. Height differences are negligible. 60-70% of the courses are on paved areas. Runnability and visibility are excellent and allow high speed for the runners.

ROB Final:

Typical city centre environment, smaller to larger streets, alleyways, squares and school courtyards, arcades and areas with stairs that offer runners route choices. Height differences are negligible. Approximately 90% of the courses are on paved areas. Runnability and visibility are excellent and allow high speed for the runners.

SVOB:

Two-thirds of the terrain is in a university campus with park areas between larger buildings, the other third is suburban environment with family homes. Height differences are negligible. Pavement ratio is 60-70%. Runnability and visibility are excellent and allow high speed for the runners.

Embargoed area:

Until the day of the competition, all orienteering activities are prohibited in the area marked on the map outlined below. Orienteering activities include navigating on the streets with a map, testing route choices, exploring different areas, etc. Violators of the embargo may be disqualified from the competition according to the competition rules! For all questions regarding the embargo, please contact the President of the Organising Committee directly at kesementor@gmail.com

Open: non-championship individual class

Entries: Using the entry system: <https://www.e-nevezes.hu/en/esemeny/show/143>

With the exception of the Open classes, all entrants must have a Hungarian Orienteering Federation competition licence (annual or daily). The issuing of a daily competition licence is automatic for those, who don't have an annual licence. For having an annual HOF competition licence, you must belong to, and race for a member club of the Hungarian Orienteering Federation. The entry system controls the availability of the annual competition licence at the entry date. In case the competitor doesn't have an annual competition license, the system automatically calculates and adds the daily license fee. In case the competitor applies for an annual license later than the entry for the competition, it is her/his own responsibility to amend the entry by using the "Recalculate" button of the entry system, resulting in the reduction of the entry fee.

M / W 21E entrants wishing to run for world ranking points (in the WRE) must also enter through IOF Eventor: <https://eventor.orienteering.org/Events/Show/7124>

Entry deadline:

Friday, 3th September 2021 (championship classes)

In Open classes, the entry deadline is 12th September 2021. On the day of the competition, it's only possible to enter if there are vacant start slots still available.

The name entry deadline for the Sprint Relay competition will be 20:00 on Saturday 18th September 2021, exclusively through <https://www.e-nevezes.hu/en/esemeny/show/143>.

Other information:

Commercial activity during the competitions is only possible with the permission of the organiser.

Qualification to the finals in the individual competition:

- If there are 48 or more entrants, the number of qualifiers from each heat to the A-final shall be equal and shall be calculated so that the total number of qualifiers is 24, or the lowest possible number above 24. Similarly for the B-final and so on except that if there are more than two finals and fewer than 5 competitors have qualified for the lowest ranked final, they may be transferred to the next final up.
- If there are from 10 to 47 entrants, then they shall be split as equally as possible between an A-final and a B-final, with the A-final having at least half the total number of entrants.
- If there are fewer than 10 entrants, then all shall compete in the A-final.

For other technical matters (qualification to the final, etc.), the relevant Hungarian orienteering rules apply. More information will be available in Bulletin 2.

We operate a kindergarten and a luggage storage on both competition days.

Everyone competes during the weekend at their own risk.

Participants (competitors, spectators, etc.) agree that the images and video recordings of the competition may be published in the printed and electronic press, including the Internet, unless otherwise stated in writing.

Further information will be available in the HOF databank
