All moving inside the marked areas is forbidden for persons taking part in the event until the results of the PreO 3 competition are final. Travelling through the area is permitted along Uimaharjuntie (road number 73) as well with train, but not on the Pielisjoki river, so boating by waters is forbidden.

Categories: E category (TempO and PreO) and A category (PreO). Finnish competitors need a valid Finnish orienteering license. Foreign competitors need an IOF ID. You will get that by creating a profile in IOF Eventor. In A class, the course will be easier and is suitable to get acquainted with the sport. Class A is also appropriate for children, even though not the smallest ones. All competitors, regardless of age, gender and physical ability, compete in the same class according to their skills.

Entries: Finnish competitors enter via Finnish orienteering federation's IRMA service. Foreign competitors enter with email (instructions below) and shall pay until Aug 4th by bank transfer. The price is determined by the entry period.

Entry fees in E category 22 EUR (PreO competitions) and 15 EUR (TempO competitions).

In the PreO competitions, also category A will be arranged. Entry fee is 12 EUR. Entries in A category via e-mail and payment by bank transfer at latest on Aug 4th.

First entry period closes on July 31st. Late entries with 50% higher prices at latest on 4.8.

Mail address for entries: fintrailo2021@gmail.com

Instructions for payments will be given later.

Guiding: Guiding to the event center and competition areas starts from road Uimaharjuntie (road number 73).

Event center and info: The event center is the yard of Eno summer theatre. Please note that all moving in the event center is restricted before Friday's TempO competition. Navigation address of the event center is Paukkajanvirta 25, Joensuu. Coordinates are 62.862360,30.205766. [Terrain map](#) / [Google maps](#)

NB!! Google shows the driving route wrong, since there is no more railroad crossing next to the theatre, you need to drive along Paukkajanvirta road through tunnel, turning right after the Rahkeenniemi guide sign.

Info will be serving in the event center during the TempO competition of Friday. On Saturday and Sunday, it will be serving on the competition sites.

WC: There is Inva-WC in the event center. It can not be used before the TempO 1 competition.

Starts: First start times are marked in the programme. For travelling reasons, you may ask for a start time adjusted to your schedule, please contact fintrailo2021@gmail.com

Maps: Sprint maps specially prepared for TrailO in all competitions. The scale in PreO competitions is 1:4000, and in TempO competitions 1:3000. Equidistance is 2,5 m in all maps. Mapping 2018-2021 by Petteri Hakala.

Terrain and routes: Terrain type is a variety of ice age forms including eskers with pine forests and drumlines next to higher hills. Terrain is mainly forests of different ages and effects of forestry, varying from semi-open logging sites of this spring to spruce forests older than 100 years. In TempO, there will be features of the open air theatre, including man-made constructions and also landforms of an old gravel pit. In PreO, there are forest terrains with lots of boulders and some crags. The routes are mainly flat gravel roads of very good quality, but in two PreO competitions, there are a couple steep parts, which will be marked as One Way -sections. The visibility is mainly very good, but there are some areas of thick vegetation in the PreO competitions.

Punching: In WRE competitions, the official punching system is manual punching. Using own manual punchers is recommended. The organizer has some punchers to borrow (need to be pre-ordered). The punching system of PreO2 is still open, probably also manual punching if no electronical system available.

Escorts: The organizer does not provide escorts. Competing with your own escort is allowed. The escort may only help in punching and moving on, not solving the tasks.

Overall results: FinTrailO multi-day competition's results are counted of TempO and PreO competitions' results so that three best scores of five events are counted for each participant. Preliminary plan is to use the relay formula to convert PreO scores to seconds as the following way:

mistakes in PreO-competitions x 60 s + times on timed controls. Those three competitions that give smallest seconds are counted for each participant.

Prizes: Best competitors will be rewarded in both E and A categories.

Entering Finland:

1. Normalized border control on the Schengen area:

If you are coming from a country that is on the list, you may enter Finland without restrictions. Please note that this list will still have changes before the event. The parliament has accepted new law which will tighten the limit for unrestricted traffic, it will change from 25 to max 10 infections per 100 000 inhabitants in 14 days period. New restrictions will be made until July 25th. Check the current situation on: <https://raja.fi/en/guidelines-for-border-traffic-during-pandemic>

2. Entry to Finland is permitted from the rest EU and Schengen countries if:

- you have received a full vaccination series (one dose or two doses depending on the vaccine) and at least two weeks have passed since the last dose of vaccine or
- you have had COVID-19 and received at least one vaccine dose, and at least one week has passed since the vaccine dose or
- you have had COVID-19 less than six months ago.

Check out for the needed certificates on: <https://valtioneuvosto.fi/en/entry-restrictions>

3. If none of the two above chapters applies to you, you need to wait for the decision on our application to the border guard. If it is approved, you will be able to attend the event with special restrictions on travel and accommodation. We will inform about the decision on our event page (<https://www.trailo.fi/fintrailo-2021/>) as soon as it comes, it should arrive on week 28. Please note that citizens of some countries outside the Schengen area will need a visa for entering Finland as normally.

Accommodation:

Due to a repair of a local industrial complex in Uimaharju, there will be 600 workmen filling most of nearby accommodation in Eno. Thus, you probably need to look for accommodation a bit further, near the Koli area or Joensuu city. Also some Airbnb-apartments could still be available.

We recommend all foreign participants to book accommodation in the following hotels. We have contacted the personnel of those hotels. If you are not coming from a country with normalized border traffic (above chapter 1) nor a Schengen or EU country with a valid vaccination/illness certificate (above chapter 2), these two hotels (Vaakuna and Julie) are the only ones you are allowed to book IF our application is approved.
