

Testing requirements:

All participants must enter Bulgaria following the Bulgarian Health Ministry requirements based on the color code of the country they are entering from. Once participants are in Chepelare, they need to report to the competition center/Hotel Borika first. Every participant will be tested with the PCR test. Results will be ready at the evening for the people tested during the day, and at the morning for the people tested the previous evening. While waiting for the results, competitors must be isolated in their accommodation. If the PCR test is positive, the person will be quarantined as per the COVID bulletin.

On the 25th of January, an antigen test will be taken as a precautionary measure. If the antigen test is positive, the person will be tested with a PCR test. If positive as well, isolation will take place as per Covid Bulletin. All costs for the test will be covered by the competitors.

***55 euro is the PCR test.***

***25 euro is the antigen test.***

11.01.2022 – the Minister of Health of Bulgaria issued a new order in which the 14-day period of isolation is changed to 10, and 10 days for contact persons is changed to 7 days. The director of the relevant regional health inspectorate may revoke the issued quarantine prescription for close contact person with an additional (booster) dose of COVID-19 vaccine by submitting a document via email showing a negative PCR result from a test conducted 72 hours after quarantine. The prescription is canceled within 24 hours from the presentation of the document showing a negative test result.

Ilian Todorov – Competition office manager
