## Classes and Competition rules

Nordic match, team competition:	National teams with 5 athletes in each team.  We recommend Nordic match teams to be chosen (if possible) like that they have at least one member with certificate to P-class.
Nordic match, individual:	Elite

The athlete and team with highest combined result from the three competitions will win the Nordic Match in respectively the individual and team competition.

Every nation may have one or more teams. The two teams with highest combined result after the two competitions from each of the Nordic countries counts in the final team competition. Other countries (or any group of athletes) may also have teams, but these will compete outside the Nordic Match teams competition.

The Competition Rules for IOF Trail Orienteering Events. The latest version of the rules is available for download on the IOF website <https://orienteering.sport/>

Rule deviation: "PreO by Night" has no time control. Only points counted.
