A WARM WELCOME TO DAVOS KLOSTERS

Dear athletes, team members and orienteering friends

It is a great pleasure to welcome you to the Orienteering World Cup Finals in Graubünden! Our region has the highest density of major sporting events in Switzerland. Every year we host a double-digit number of World Cup events in various sports, and I am particularly pleased that the orienteering competitions are part of it. This not only because I used to search for the fastest route choice with map and compass when I was young, but also because the fascinating combination of running in the great outdoors and map-reading suits Graubünden particularly well. That's why I'm already looking forward to next year, when your World Championships will continue the great tradition of major sporting events in Graubünden.

I wish all the athletes good luck in fair and accident-free competitions and I would like to thank the organisers and all volunteers who made this World Cup Final possible for their great commitment.

Allegra, Willkommen, Benvenuti, Welcome to Graubünden!
Dr. Jon Domenic Parolini, government councillor canton of Grisons

Dear participants and team members

Davos Klosters is one of the most famous holiday destinations in the world and offers the most comprehensive holiday, sports and meeting facilities in the mountains. The foundation stone for this success was laid over 150 years ago when the first winter guests arrived on 8 February 1865.

The resort of Davos Klosters offers a holiday destination with a thousand possibilities: ski slopes with guaranteed snow, an extensive network of cross-country tracks, unique hiking trails, wonderful mountain biking routes in all the tributary valleys, thrilling adventure and theme parks and countless bathing opportunities. Davos Klosters has also been awarded the «Family Destination» quality seal, which distinguishes holiday resorts that specifically match their offerings to the needs and requirements of children and their carers.

The Davos Destination Organization wishes everyone an unforgettable and successful EGK Orienteering World Cup Final here in the mountain region of Davos Klosters. We are looking forward to exciting orienteering competitions and living sports enthusiasm as well as top results of the athletes.

Welcome to the mountain paradise of Davos Klosters!
Andre Rellstab, Head of Events, Destination Davos

Dear competitors and orienteering friends

The region of Davos Klosters and the organizing team are welcoming you to the EGK Orienteering World Cup Final and to the wonderful mountain region Graubünden.

It is a great pleasure that we are able to offer you these exciting competitions less than one year before the World Orienteering Championships in Flims Laax in July 2023. The terrains and the region give you the best preparations for the international highlight in 2023.

The terrains and competitions will offer you beautiful views, challenging courses and a friendly, thrilling atmosphere in the arenas.

It's a pleasure to have you here, a warm welcome to Switzerland!

11. COMPETITION INFORMATION

11.1 PUNCHING, TIMING SYSTEM, GPS TRACKING

Touchfree SPORTident Air+ punching will be used. All entered competitors will get a SIAC-card together with the accreditation.

All SIAC-Cards must be handed in teamwise during/after the Monday's long distance at the event office tent in the arena. Missing SIAC-Cards will be charged with 90 CHF/card.

The technical specification for maximum distance to record a punch is 30 cm.

If a competitor presents at the call up (pre start) a different SIAC number compared to the published start list, the presented SIAC will be taken away and replaced with a new SIAC-card. This new SIAC shall be used throughout all upcoming competitions of the event.

Start timing

Relay: Mass start. Listen to the commands of the start official. Start signal will be given through the start official. Early start leads to disqualification.

Individual races: A start gate will be used. The start beep and a visible start clock will show the countdown. The start beep starts at -5 seconds. The competitor is allowed to start between -3 seconds and +3 seconds according to the starttime. It's the competitor's responsibility to start at the correct time. Earlier start than -3 seconds leads to disqualification. If the gate is activated after +3 seconds, the original start time will be used for time keeping. On the start clock a red/green light indicates when the competitors are allowed to start.

Finish timing

In all races, the finish time will be taken by a photocell when the chest crosses the finish line. In case of a head-to-head run in in the mass start races, a finish camera will be used to define the final placings based on the order that the competitors' chest cross the finish line.

The running times will be rounded down to the nearest second.

After crossing the finish line the runners have to punch a SPORTident unit according to the run-in order.

GPS tracking

GPS tracking services will be provided. GPS units will be given to all competitors in all races.

It is mandatory for all runners to carry the GPS device. If a runner refuses to carry the device, the runner will be disqualified (§ 2.5, § 2.6 and § 26.10).

Please take your own GPS-vest with you (hygienic reasons). The organiser provides GPS-vests only in exceptional cases. They will be handed out to the competitor for the whole event in the quarantine of the relay and must be handed in on Monday together with the SIAC-Cards. Missing GPS-vests will be charged to the federations with CHF 40.-/vest.
