Welcome by the Mayor of Turku

Dear participants of ETOC2024,

I am pleased to welcome the European Trail Orienteering Championships participants and their support teams, including family members and assistants to Southwest Finland and Turku in May.

Trail-O is a wonderful sport because it is suitable for people of all ages and fitness levels. The goal is not to measure the physical fitness of the orienteer, but rather, the essence of the sport is based on reasoning tasks.

The beautiful nature and varied terrain of Southwest Finland provide the perfect setting for the 2024 European Championships.

Our region is known for the world's most beautiful archipelago, fertile fields, deciduous forests, and Finland's oldest city, Turku. The green walking paths along the Aura River running through Turku's centre offer a glimpse into the history of Finland's oldest city and its vibrant present.

Turku will celebrate its 800th anniversary in 2029. We are preparing for the anniversary in many ways, but our main goal is that by then, Turku will be a carbon-neutral area. It is the most valuable gift we can leave for future generations. Combating climate change and preserving biodiversity is a shared responsibility for all of us.

The city of Turku wishes all participants of ETOC2024 good luck and success. At the same time, I thank the local organizers and countless volunteers for arranging and hosting this wonderful sports celebration.

I hope that during the competition, and perhaps after its conclusion, you will have time to linger and explore Turku and Southwest Finland.

Minna Arve Mayor of Turku, Patron of ETOC2024

Welcome by the Event Director

Welcome to the European Trail Orienteering Championships 2024!

The Finnish Orienteering federation and orienteering club Turun Metsänkävijät is pleased to invite you to ETOC 2024 that will be held in Southern Finland, in the Turku area.

Our biggest goal is to offer top Trail-O athletes the best-level competitions you can ever imagine. In achieving this, we rely on our extremely experienced organization team, top-level maps and the most enjoyable and demanding terrains.

In Easter 2018 Turun Metsänkävijät arranged FinTrailO in quite demanding weather with snow and ice, but despite that, the feedback we received from our arrangements was very good. Of course, our challenge in organizing a top level ETOC competition is now much bigger, but we certainly are ready for that.

Turku area is quite easy to reach by different transport links and it is easy to find accommodation in Turku.

Hopefully there is peace on earth (and there is no pandemic complicating the organization of the competition) and you can totally concentrate on such kind of nice things, like ETOC 2024. You are warmly welcome to Turku, Finland, and to European Trail-O Championships 2024!

Mikko Knuuti, Turun Metsänkävijät Event Director

Venue

ETOC 2024 will be held in south-western Finland. Event Centre is located in Turku, the oldest city and former capital of Finland. The year of the city's founding is 1229, when Pope Gregorius IX mentions the city called Aboa (the Latin name of Turku) for the first time in his bull.

Heart of the city specially in the summer time is the banks of river Aura with lots of restaurants and restaurant boats offering the best Finnish delicacies and refreshments. You will also meet Mr. Paavo Nurmi there, a nine-time Olympic champion in distance running.

Turku is not just a seaside city. It's the gateway to the Finnish archipelago, an unparalleled natural wonder made up of 40 000 islands and counting. A small glimpse of this can be seen on the tourist cruises that last a few hours that depart from the Aura river. Getting to know the archipelago better takes some time, but it's worth it. In summer, there are many different activities, accommodation and fresh local food available.

SEA's Note

Once again, the strongest ones meet in the main Trail Orienteering event of the year. The desire of the organisers is to make it a festive event for all of us. Hopefully, you will be pleased with perfect organisation and interesting and fair courses. As the SEA of the event, I have worked hard to ensure that the maps and courses meet your highest expectations. You will find some tasks that are easy for you to solve, but don't relax, as there will also be tricky ones too. In TempO, as always, the speed of decision-making will be decisive and every mistake can be fatal, so stay focused. Apart from the news that the TempO final will be broadcast live on TV, the organisers do not promise any more surprises. The terrain is typical of this region, which you know very well; you have already competed in similar terrain many times. We will be ready to serve you at every moment of the event. I wish everyone the best of luck; enjoy the orienteering!

Andrius Jovaiša, ETOC2024 SEA
