IOOC 2024

INDONESIA OPEN ORIENTEERING CHAMPIONSHIPS

**31 AUGUST - 01 SEPTEMBER 2024
TANGERANG - BANTEN
INDONESIA**

**MAPALA BENTENG ALAM
UNIS TANGERANG**

INTRODUCTION

ORIENTEERING

Orienteering developed in the 19th century in Scandinavia as a military exercise and scouting activity, with the first public event held in Sweden in 1918 by Major Ernst Killander. **Orienteering** spread throughout Europe in the 1930s, becoming increasingly popular after World War II, especially in Eastern Europe and the Soviet Union. The **International Orienteering Federation (IOF)** was founded in 1961, and the first Orienteering World Championships were held in Finland in 1966.

In Indonesia, orienteering became popular at the beginning of the 21st century. The **Indonesian National Orienteering Federation (FONI)** was founded and received official recognition from the Ministry of Youth and Sports in 2014. Since then, FONI has actively organized various training and competitions to introduce and develop **orienteering** in Indonesia.

ORGANIZER

FONI

The **Indonesian National Orienteering Federation (FONI)** was established to manage and promote the sport of orienteering in Indonesia, with official recognition from the government through the Ministry of Youth and Sports in 2014. This recognition allows FONI to develop orienteering in a structured manner, organize training, local and national competitions, as well as educational program to introduce orienteering to all Indonesian people.

The **Indonesian National Orienteering Federation (FONI)** is a legal federation or main organization that oversees orienteering activities in Indonesia. **FONI's** main objective is to encourage, promote and coordinate the sport of Orienteering in Indonesia and collaborate to encourage the progress of sport tourism in tourist destinations in Indonesia.

FONI has become a permanent/full member of the **International Orienteering Federation (IOF)** as an international institution that oversees and is part of Orienteering ASIA (Orienteering Association of ASIA Countries)

ORGANIZER

MAPALA BENTENG ALAM

Mapala Benteng Alam is one of the Organization at the Syekh-Yusuf Islamic University Tangerang in accordance with the Decree of the Chancellor of UNIS Tangerang No. 78 of 1999,

Apart from being an organization that uses the outdoors as a means of training, for this reason, a member of **Mapala Benteng Alam** makes orienteering a focus for training and achieving achievements. Because the training field for orienteering is included in the division at **Mapala Benteng Alam**, namely the Forest Mountain division.

Mapala Benteng Alam has a Division that is directly related to Land Navigation, namely the Forest Mountain Division. Orienteering is a sport that is closely related to Land Navigation. Therefore, one of the implementations of knowledge regarding Land Navigation is in the sport of Orienteering.

AN OBJECTIVES

Increase public interest and participation in orienteering sports, promote the beauty and diversity of Indonesia's nature, and develop navigation and orientation skills.

That is a hoped that this event will increase public interest in the sport of orienteering, both in terms of national and international participants.

This event is also a platform for developing young talents in the sport of orienteering, creating potential superior athletes for Indonesia.

Event Organizer

The IOOC 2024 event is a golden opportunity for orienteering lovers to compete on challenging terrain and enjoy the natural beauty of Indonesia. The collaboration between MAPALA Benteng Alam and FONI ensures that this event will run smoothly and meet international standards, making it one of the most prestigious orienteering events in Indonesia this year.

3. Bus

Participants from Indonesia who come from other regions can use bus transportation from their respective regions with the final destination at the Poris Plawad Bus Terminal, after that go to the UNIS Tangerang Campus using online transportation modes (Gojek, Grab, Maxim, etc.).

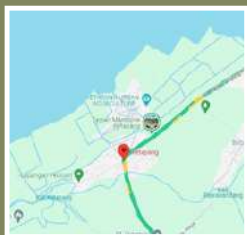

RACE VENUE

(Day 1)

Ketapang Mauk is an area located in Tangerang Regency, Banten Province, Indonesia.

This area is easily accessible by road from the center of Tangerang Regency and surrounding cities. Good road infrastructure makes it easy for participants to reach the competition location.

The terrain in this area varies, from mangrove forests, agricultural areas, to grasslands. The presence of various types of vegetation provides its own challenges for participants in terms of navigation and orientation.

The dominant vegetation in Ketapang Mauk includes coconut trees, mangrove forests and other coastal plants. Dense vegetation in some areas can make visibility and navigation difficult.

Ketapang Mauk has a tropical climate with average temperatures ranging from 24-32°C. Humidity is relatively high, so participants need to prepare well for hot and humid conditions.

I ♥ MANGROVE

EMBARGO AREA (Race Day 1)

The Ketapang - Mauk Mangrove Tourism Area area, Tangerang Regency has become an embargo area, which means that before the event is held, the area cannot be accessed (Forbidden) by participants for training, terrain orientation, and other activities that can benefit participants.

I ♥ MANGROVE

RACE VENUE

(Day 2)

The Central Government Area of Tangerang City is an area located in Tangerang City, Banten Province, Indonesia.

This area is a government agency office in Tangerang City which has many divisions in it.

The terrain in this area varies, from office buildings, worship buildings, highways, agricultural areas, to grasslands. The presence of various types of vegetation provides its own challenges for participants in terms of navigation and orientation.

The Central Government Area is an urban area with several main roads which will have access closed to passing vehicles so that runners can run safely.

Tangerang City has a tropical climate with an average temperature ranging from 24–32°C. Humidity is relatively high, so participants need to prepare well for hot and humid conditions.

EMBARGO AREA (Race Day 2)

The Central Government Area of Tangerang City is an embargo area, which means that before the event is held, the area cannot be accessed (Forbidden) by participants for training, terrain orientation, and other activities that can benefit participants.

Accommodation

1. Jersey

Each participant who takes part in 2 competition categories will get 1 official IOOC 2024 jersey. This jersey is specifically designed for comfort and performance, using light material that quickly absorbs sweat. The jerseys will also feature sponsor logos, providing wide exposure for sponsors.

2. Punching System (Sportident)

Sportident will be used to record times and checkpoints during this event. Each participant will be loaned a dibber which must be worn throughout the race to ensure accurate time records.

3. Map

Participants will be given a detailed orienteering map with international standards. This map covers the entire race area with clear markings for checkpoints, terrain and routes to be taken.

4. Lunch

The Organizer provides lunch for all participants to ensure they get sufficient energy intake. Lunch will be prepared with a varied and nutritious menu, tailored to participants' needs.

5. Refreshment

On Several race route, there will be refreshment stations providing drinking water, isotonic drinks and light foods such as fruit and snacks. This aims to maintain participants' hydration and stamina during the race.

6. BIB Number

Each participant will be given a BIB number that must be worn during the competition. This chest number is used to identify participants and make it easier for the committee to record race results and monitor along the route.

7. Registration

Each participant can register via the iof eventor website for all participants from all countries in the world.

(<https://eventor.orienteering.org/Events>)
