## 5.2. Terrain description

### a. Long distance competition – Tekirova

Map Scale: 1:10 000, Contour interval: 5 m, Map size: A4

Moderately hilly terrain, steep ascents and descents in places. Mostly conifer forest with open land in some places. The terrain is has mostly quite good runnability and visibility. Some areas have dense undergrowth. There are not many roads and paths. The highest point about 100 m and the lowest point about 10 m above sea level.

### b. Middle distance competition – Beycik

Map Scale: 1:10 000, Contour interval: 5 m, Map size: A4

Hilly terrain. Many large boulders and stony ground reduce runnability. The terrain is mostly coniferous forest with limited visibility in places. There are not so many roads and paths. The highest point is about 400 m and the lowest point is about 300 m above sea level.

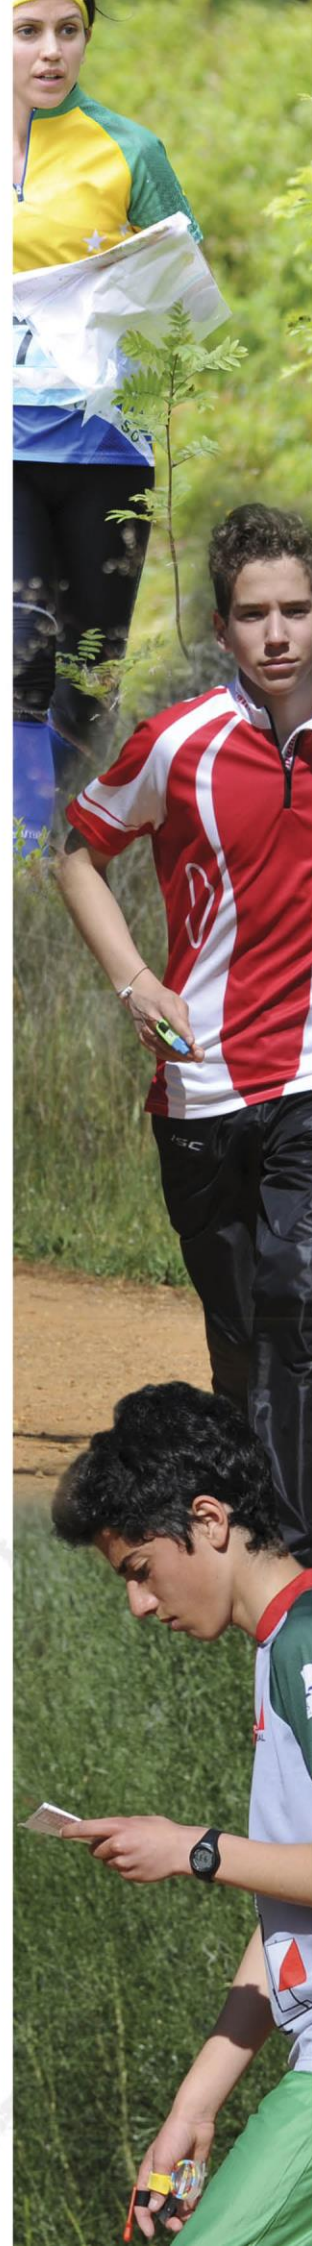

### c. Model Event

The Model Event will be held in the northern Phaselis region, offering terrain similar to both the Middle and the Long Distance competitions. Mapping was done by the same mappers, therefore the Model Event will be ideal to get familiar with how certain features have been mapped.

The Model event will be held exactly as the competitions will take place, with 3 minute start boxes, timed controls and finish with SI download. Thus, this will serve as a full model event of what competitors should expect in the coming days.

### d. Friendship Team Event

Typical urban terrain with narrow streets, many small parks, monuments and special vegetation features. Excellent runnability.
